Problem solving

CERTIFICATIONS

TCS iON Career Edge

Front End Fundamentals (IBM)

- Learnt about the roots of the front end development.

Full Stack Web Development(MERN)

- Completed a MERN Stack program emphasizing frontend React development, backend APIs with Node and Express, and database design using MongoDB.

PROJECTS

Portfolio
Built a responsive and modern personal portfolio using React.js, showcasing projects, skills, and contact details. Implemented dynamic routing with React Router, smooth scroll navigation, and reusable components. Deployed using Vercel for fast and secure hosting.

FoodFest → Link
Built and deployed a responsive restaurant web application using React with a component-based architecture and client-side navigation. Focused on clean UI, mobile-first design, and reusable code for maintainability and performance. Hosted on Vercel for production-level deployment.

PassMan → Link

Designed and developed a responsive password management web application using React (Vite) and Tailwind CSS. Implemented full CRUD operations for credential storage with client-side persistence via localStorage, ensuring fast access and offline usability. Focused on clean component architecture, state management, and mobile-first UI. Deployed on Vercel for production-ready delivery.

EXTRA-CURRICULAR ACTIVITIES

- Eagerly explore emerging technologies through personal projects, online courses, and tech communities.

- Passionate about music with a keen interest in exploring various genres and instruments. Engaged in music as a creative outlet that enhances focus, discipline, and creativity-skills that positively influence both personal and professional growth.
